1. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.
2. Claims 17-19 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1,2,8 of U.S. Patent No. 6,592,030. Although the conflicting claims are not identical, they are not patentably distinct from each other because all the currently claimed limitations can be found within the patent claims.
3. Patent claim/element 1(a) relates to current claim/element 17(a).
4. Patent claim/element 1(b) relates to current claim/element 17(b).
5. Patent claim/element 1(d) relates to current claim/element 17(c).
6. Patent claim/element 1(c) relates to current claim/element 17(d).

8. Patent claim 2 relates to current claim 18.
9. Patent claim 8 relates to current claim 19.
10. Claims 1-16 are allowable over the prior art of record.
